Executive Summary

Deliverable D4.5 “Field Trips” presents the process and outcomes of implementing Task T4.8 “Field Trip” under WP4 – *Communication, Dissemination and Exploitation* within the Jean Monnet Centre of Excellence “Technology and Innovations for Agenda 2030 – EU Global Leadership” (TIA2030). The task connected the project’s educational and outreach activities with institutional practice and multi-level policy debate with relevant audiences by organising three multi-day joint international field trips addressing following topics: EU implementation of Agenda 2030 (Field trip 1 – Brussels (Belgium) and Luxembourg, 15-19 September 2024), the United Nations approach to implementation of Agenda 2030 and its SDGs (Field trip 2 – Geneva and Zurich (Switzerland), 25-29 August 2025), and the impact of Agenda 2030 on neighbourhood regions and the effect of EU public diplomacy (Field trip 3 – Belgrade (Serbia), 2-5 June 2026). All three field trips brought academic and non-academic audiences insights about Agenda 2030, its implementation and the role of EU and UN institutions, while supporting the project’s transnational dimension.

The programmes of the field trips included visits and meetings with EU institutions, UN bodies, diplomatic representations, scientific and educational organisations, and regional development actors. Participants engaged with topics including policymaking, multilateral cooperation, technology and innovation, sustainable development, European integration and public diplomacy. These encounters provided opportunities to examine how the strategic priorities discussed within TIA2030 relate to the work of institutions and practitioners in different national and international settings.

The deliverable presents the programmes, results and organisational and implementation details for each field trip.

Funded by the European Union. Views and opinions expressed are however those of the author(s) only and do not necessarily reflect those of the European Union or the European Education and Culture Executive Agency (EACEA). Neither the European Union nor EACEA can be held responsible for them.

1. Introduction

Deliverable D4.5 “Field Trips” represents the report on the process and outcomes of implementing Task T4.8 “Field Trip” under WP4 – *Communication, Dissemination and Exploitation* within the Jean Monnet Centre of Excellence “Technology and Innovations for Agenda 2030 – EU Global Leadership” (TIA2030). Within this task, the Jean Monnet Centre of Excellence TIA2030 participated in the organisation of three multi-day joint international field trips, thereby connecting the project’s educational and outreach activities with institutional practice and multi-level policy debate.

The field trips addressed the following thematic scopes:

- EU implementation of Agenda 2030 (Field trip 1, Brussels (Belgium) and Luxembourg, on 15-19 September 2024);
- the United Nations approach to implementation of Agenda 2030 and its SDGs (Field trip 2, Geneva and Zurich (Switzerland), on 25-29 August 2025);
- the impact of Agenda 2030 on neighbourhood regions and the impact of EU public diplomacy (Field trip 3, Belgrade (Serbia), on 2-5 June 2026).

The field trips included visits to EU institutions, UN bodies, diplomatic representations, scientific and educational organisations, and regional development actors, bringing together academic and non-academic audiences to explore Agenda 2030, its implementation, and the role of EU and UN institutions in this process.

Within the wider project framework, the field trips also contributed to achieving TIA2030 objectives (in particular, SO2, SO3, SO4, SO5) by providing access to professional expertise, connecting disciplinary perspectives on Agenda 2030 and organising transnational activities. Communication and dissemination activities of the project (such as calls for participation, newsletters, publications on the TIA2030 online platform and other communication and dissemination channels) ensured visibility and openness of project activities on the topic of the EU and Agenda 2030.

The document is structured into 4 chapters. The first chapter provides introductory remarks and outlines the purpose and scope of the deliverable. The second chapter provides an overview of all three field trips. The third chapter presents the overall results and the field trips' contribution to achieving the TIA2030 objectives. The main findings are summarised in the Conclusion chapter. The appendices contain invitation letters (public calls for participation) for the field trips. Agendas for all three field trips are attached to this document as separate PDF files and form an integral part of the deliverable.

Funded by the European Union. Views and opinions expressed are however those of the author(s) only and do not necessarily reflect those of the European Union or the European Education and Culture Executive Agency (EACEA). Neither the European Union nor EACEA can be held responsible for them.

2. Field trips organisation and implementation

Jean Monnet Centre of Excellence "Technology and Innovations for Agenda 2030 – EU Global Leadership" (TIA2030) participated in the organisation of 3 (three) multi-day joint international field trips within the project implementation period – in 2024, 2025 and 2026. Consolidated information about all three field trips is presented below in Table 1. Each field trip met the minimum target of 20 participants and the planned duration of four to five days.

Table 1: Overview of the field trips implementation

Field trip	Dates and duration*	Location	Visits	Main thematic focus	Participants
Field trip 1	15-19.09.2024 5 days	Luxembourg City (Luxembourg) and Brussels (Belgium)	• European Parliament; • European Economic and Social Committee (EESC); • Scotland House Brussels (Scotland Europa)	EU implementation of Agenda 2030	22
Field trip 2	25-29.08.2025 5 days	Geneva and Zurich (Switzerland)	• the UEFA Headquarters; • the United Nations Office at Geneva (UNOG) (Palais des Nations); • the World Intellectual Property Organization (WIPO); • CERN, the European Organization for Nuclear Research • the Greater Zurich Area; • ETH Zurich	United Nations approach to implementation of Agenda 2030 and its SDGs; multilateral cooperation, technology and innovation	29
Field trip 3	02-05.06.2026 4 days	Belgrade (Serbia)	• Embassy of the Republic of Slovenia in Belgrade; • Delegation of the European Union to Serbia; • United Nations Development Programme (UNDP) Serbia; • Regional Agency for Development and European Integration (RADEI) Belgrade	Impact of Agenda 2030 on neighbourhood regions, European integration and impact of the EU public diplomacy	21

**Durations refer to the full trips, including travel*

Calls for participation (including information about TIA2030 and the role of the field trip in its implementation) were announced on the TIA2030 online platform and across FIS and TIA2030 communication channels, primarily online social networks (Facebook and Twitter). The project aimed to encourage broad participation for various target groups and non-discrimination.

Funded by the European Union. Views and opinions expressed are however those of the author(s) only and do not necessarily reflect those of the European Union or the European Education and Culture Executive Agency (EACEA). Neither the European Union nor EACEA can be held responsible for them.

Overall, the agendas of all three field trips gave practical expression to the project's transnational dimension. They brought participants into contact with European, international, national and regional institutional perspectives, providing opportunities to explore how strategic objectives are translated into policy and practice.

The following subchapters provide a detailed overview of each of the three field trips. Invitation letters (public calls for participation) are provided in the Appendices, and agendas for all three field trips are attached to this document as separate PDF files, forming an integral part of the deliverable.

2.1 Field trip 1

The first multi-day joint international field trip to Belgium and Luxembourg took place from 15 to 19 September 2024. It involved 22 participants, including various target groups such as students, academia, professionals, external stakeholders, and the general public.

The agenda included visits to:

- the European Parliament (17.09.2024), where the participants learned insights about the functioning of the European Union's law-making body and its role in shaping policies that align with global objectives like the UN Agenda 2030 and its SDGs;
- the European Economic and Social Committee (EESC) (17.09.2024), which provided a comprehensive understanding of how civil society influences EU policies and how these policies contribute to achieving Agenda 2030;
- Scotland House Brussels (18.09.2024), which offers a highly integrated presence of Scotland in the EU, delivering services that foster Scotland's economic growth, diplomatic relations, and cultural promotion at the EU level, also providing a view of how Scotland is committed to Agenda 2030, contributing to the EU's broader sustainability goals.

The programme connected the task's EU focus with concrete institutional roles and practices. It examined how sustainable development objectives enter policymaking, how different actors contribute to implementation, and how representation and dialogue operate within the European policy environment. These themes are relevant to TIA2030's interest in exploring the EU perspective of Agenda 2030 and the relationship between strategic ambitions, institutions and implementation.

Invitation letters (public calls for participation) for Field trip 1 are presented in Appendix 1. As the call for participation initially included only the preliminary agenda, some changes were made to the programme after the call was published. These adjustments did not affect the thematic scope or the overall implementation of the field trip. The final agenda for the field trip is attached to this document as a separate PDF file (D4.5_TIA2030_Field trips_Field trip 1 Agenda). Photos from the field trip are available through the link to the TIA2030 online platform: https://www.tia2030.eu/post/multi-day-joint-international-field-trip-to-luxembourg-and-belgium-results.

Funded by the European Union. Views and opinions expressed are however those of the author(s) only and do not necessarily reflect those of the European Union or the European Education and Culture Executive Agency (EACEA). Neither the European Union nor EACEA can be held responsible for them.

2.2 Field trip 2

The second multi-day joint international field trip to Geneva and Zurich (Switzerland) took place from 25 to 29 August 2025. It involved 29 participants, including various target groups such as students, businesses, academia, external stakeholders, general public at large.

The agenda included visits to:

- the UEFA Headquarters (26.08.2025), where the participants had an opportunity to explore how technology, innovation, sustainability, and modern infrastructure can be integrated into the operations of an international organisation;
- the United Nations Office at Geneva (UNOG) (Palais des Nations) (26.08.2025), which illustrated the United Nations' role in global governance through diplomacy and soft power, highlighting how multilateral cooperation contributes to sustainable development;
- the World Intellectual Property Organization (WIPO) (27.08.2025), which provided insights into how intellectual property rights foster and manage innovation, technology transfer, and entrepreneurship;
- CERN, the European Organization for Nuclear Research (27.08.2025), where the participants explored how frontier science and big data technologies expand not only technological but also social and cognitive perspectives;
- the Greater Zurich Area (28.08.2025), which provided a concrete example of how regional innovation ecosystems attract global talent and investment, showing the importance of regional development in Europe's competitiveness;
- ETH Zurich (28.08.2025), where the participants also took part in a Campus Tour and saw how excellence in science, education, and entrepreneurship can drive sustainable innovations and reinforce Europe's position as a global actor in technology and knowledge.

Thus, bringing together UN bodies and scientific, educational, and other international organisations linked the United Nations' approach to Agenda 2030 with TIA2030's broader interest in technology and innovation. The field trip programme also offered complementary perspectives on implementing Agenda 2030 through international cooperation and on the institutions that support technological and economic development.

Invitation letters (public calls for participation) for Field trip 2 are presented in Appendix 2. The agenda for the field trip is attached to this document as a separate PDF file (D4.5_TIA2030_Field trips_Field trip 2 Agenda). Photos from the field trip are available through the link to the TIA2030 online platform: https://www.tia2030.eu/post/multi-day-joint-international-field-trip-2025-results.

2.3 Field trip 3

The third multi-day joint international field trip to Belgrade (Serbia) took place from 2 to 5 June 2026. It involved 21 participants, including various target groups such as students, academia, policy-makers, professionals, external stakeholders, and the general public.

Funded by the European Union. Views and opinions expressed are however those of the author(s) only and do not necessarily reflect those of the European Union or the European Education and Culture Executive Agency (EACEA). Neither the European Union nor EACEA can be held responsible for them.

The agenda included visits to:

- Embassy of the Republic of Slovenia in Belgrade (03.06.2026), where participants explored bilateral relations between Slovenia and Serbia, diplomatic cooperation, and the importance of EU enlargement for regional stability and development;
- Delegation of the European Union to Serbia (03.06.2026), where participants gained a deeper understanding of the EU's role in Serbia's accession process, public diplomacy, and the promotion of EU values and interests;
- United Nations Development Programme (UNDP) Serbia (04.06.2026), which provided insights about the implementation of the SDGs in Serbia, including UNDP's strategic approach and key priorities;
- Regional Agency for Development and European Integration (RADEI) Belgrade (04.06.2026), which allowed participants to examine how regional development, entrepreneurship, SME support, innovation, and cooperation among public, private, and civil society actors contribute to Serbia's European integration process.

Thus, the field trip to Belgrade (Serbia) allowed participants to explore Agenda 2030's impact on neighbouring regions and the impact of EU public diplomacy. The programme provided opportunities to gain new insights into national diplomatic and regional development perspectives within a single-country context, extending the project's discussion of Agenda 2030 implementation beyond EU membership.

Invitation letters (public calls for participation) for Field trip 3 are presented in Appendix 3. The agenda for the field trip is attached to this document as a separate PDF file (D4.5_TIA2030_Field trips_Field trip 3 Agenda). Photos from the field trip are available through the link to the TIA2030 online platform: https://www.tia2030.eu/post/multi-day-joint-international-field-trip-2026-results.

3. Overall results and contribution to TIA2030

All three field trips contributed to TIA2030's purpose of developing competence and knowledge on EU implementation of Agenda 2030. Their place within the project is informed by Open Innovation 2.0, which emphasises stakeholder interaction and co-creation; the Open-Source model, which emphasises publicly available knowledge; and the SOFIA framework, which examines the roles of institutions, social networks and cognitive frames in technological innovation. The programmes provided relevant institutional settings for exploring these relationships, while public engagement and availability of information about project activities supported the project's commitment to making knowledge and information accessible.

In relation to Specific Objective 2 (*To gather the expertise and competences of high-level experts on the topic of European Union grand strategies*), the field trips enabled participants to meet professionals with hands-on experience with the implementation of Agenda 2030 (including EU institutions, UN organisations, diplomacy, scientific research, innovation and regional development fields). These encounters brought practical expertise into the project's activities and provided perspectives on the relationship between strategic objectives and implementation.

Funded by the European Union. Views and opinions expressed are however those of the author(s) only and do not necessarily reflect those of the European Union or the European Education and Culture Executive Agency (EACEA). Neither the European Union nor EACEA can be held responsible for them.

The organisation and implementation of the field trips also contributed to Specific Objective 3 (*To develop synergies between various disciplines and resources in European Union studies, especially on Agenda 2030*), by connecting perspectives from EU governance, sustainable development, diplomacy, innovation studies and regional development. Participants encountered these topics within related institutional settings, supporting an interdisciplinary approach to EU studies. This complemented the project's wider intention to link research, teaching and policy debate.

For Specific Objective 4 (*To create joint transnational activities and structural links with academic institutions in other countries in exploration and teaching on the EU and its grand strategies, especially Agenda 2030*), the three field trips demonstrate the transnational dimension of the project. They enabled engagement across EU, international and neighbouring-country contexts and included contact with ETH Zurich. This supported opportunities for academic and institutional exchange.

The contribution to Specific Objective 5 (*To ensure openness of academic activities on the topic of the EU and Agenda 2030 to civil society*) concerned engagement beyond academia and public access to information about the activities. Various target groups (including students, researchers and other external stakeholders) took part in the field trips. At the same time, project and FIS communication channels shared calls for participation and information about the field trips and the project itself. In addition, visits to the EESC and RADEI addressed civil society's role in policy and development.

4. Conclusion

Jean Monnet Centre of Excellence "Technology and Innovations for Agenda 2030 – EU Global Leadership" (TIA2030) successfully organised and implemented the three international field trips foreseen under WP4, covering EU implementation of Agenda 2030 (Field trip 1, Brussels (Belgium) and Luxembourg), the United Nations approach to implementation of Agenda 2030 and its SDGs (Field trip 2, Geneva and Zurich (Switzerland), and the impact of Agenda 2030 on neighbourhood regions and the impact of EU public diplomacy (Field trip 3, Belgrade (Serbia). All three field trips met the planned duration, reported participation exceeded the minimum target for each activity, and covered planned thematic scopes. The agendas of the trips strengthened the practical and transnational dimension of TIA2030 by connecting Agenda 2030, technology and innovation, European integration and public diplomacy with institutional experience. They created opportunities for engagement between academic participants, external stakeholders and practitioners, consistent with the project's integrated approach to research, teaching and policy debate. Overall, the organisation and implementation of all three field trips supported TIA2030 objectives by providing access to professional expertise, interdisciplinary discussion, transnational activities, and public dissemination.

Multi-day joint international field trip to Luxembourg and Belgium: call for participation

We are pleased to announce a multi-day joint international **field trip** to **Brussels (Belgium)** and **Luxembourg City (Luxembourg)**, scheduled from **15.9.2024** to **19.9.2024**.

During this trip, we will have the opportunity to visit some of the main European Union institutions and organisations.

The field trip will provide a unique opportunity to gain insights into the EU's work, including its current implementation of **Agenda 2030**, the next European grand strategy. It will help to facilitate multi-level policy debate with relevant audiences and strengthen the **TIA2030** transnational dimension, the project, which focuses on the European Union's implementation of the **United Nations Global Agenda 2030** and its **Sustainable Development Goals.**

To join the field trip, please complete the **Registration Form**. The form also contains detailed information about the excursion.

Registration is **mandatory**, and it is considered complete once the Registration Form is filled out. After submission, you will receive further instructions and a detailed program.

Spots are limited, so registrations will be open until all spots are filled.

For additional information, please email tia2030@fis.unm.si.

Thank you!

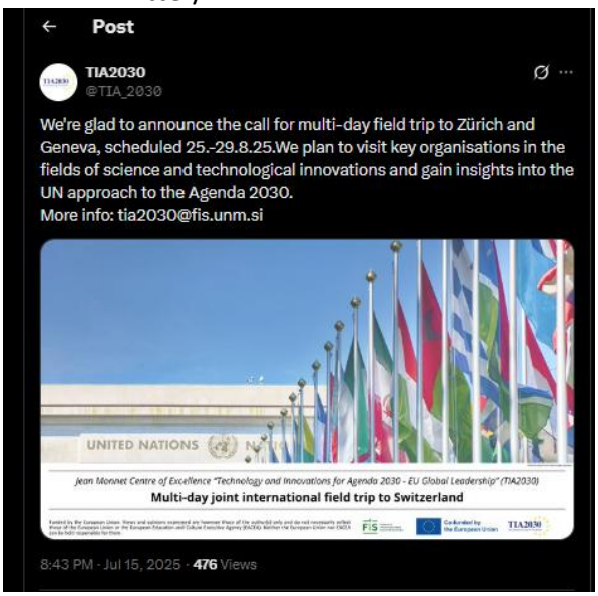

"Funded by the European Union. Views and opinions expressed are however those of the author(s) only and do not necessarily reflect those of the European Union or the European Education and Culture Executive Agency (EACEA). Neither the European Union nor EACEA can be held responsible for them."

Multi-day joint international field trip to Switzerland: call for participation

We are pleased to announce a multi-day joint international **field trip** to **Zürich and Geneva (Switzerland)** scheduled from **25. 8. 2025** to **29. 8. 2025**.

During the field trip, we plan to visit leading institutions and organisations in the fields of **science, technology, and innovation**. The visits will primarily focus on topics such as **intellectual property, sustainable development, and technological innovations.**

The field trip offers a unique opportunity to gain insights into the **United Nations' approach** to the implementation of **Agenda 2030** and its **Sustainable Development Goals (SDGs)**, in particular, during the visit to the World Intellectual Property Organization (WIPO). It will also support multi-level policy dialogue with relevant stakeholders and further strengthen the international dimension of the **TIA2030 project.**

For more information, please contact: tia2030@fis.unm.si.

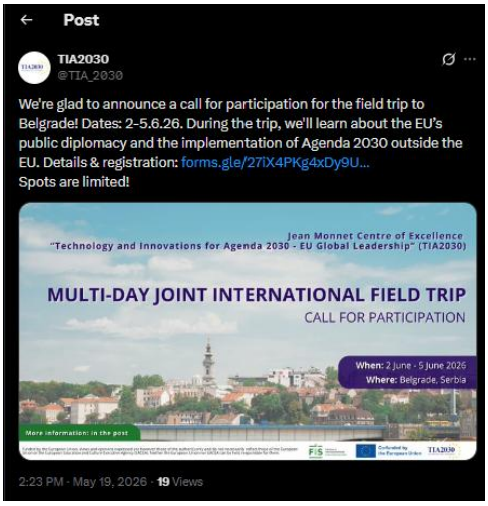

Further details will be shared directly with the field trip participants.

Multi-day joint international field trip to Belgrade: call for participation

We are pleased to announce a multi-day joint international **field trip** to **Belgrade (Serbia)** scheduled from **2. 6. 2026** to **5. 6. 2026.**

The field trip will be devoted to the impact of Agenda 2030 on neighbourhood regions and the impact of the EU public diplomacy. The participants will learn about important institutions of the European Union and the United Nations in Serbia, as well as gain insights about European integration. The visits will mainly focus on sustainable development, technology and innovation, including the implementation of the Agenda 2030 and its SDGs outside the EU.

The field trip will also support multi-level policy dialogue with relevant stakeholders and further strengthen the international dimension of the **TIA2030 project.**

To join the field trip, please complete the **Registration Form**. The form also contains additional information about the excursion. Registration is **mandatory** and considered complete once the Registration Form is filled out.

Spots are limited, so registrations will be open until all spots are filled.

For more information, please contact: tia2030@fis.unm.si.
