Jean Monnet Centre of Excellence titled **Technology and Innovations for Agenda 2030** (TIA2030) is the focal point for competence and knowledge on European Union implementation of United Nations global Agenda 2030. European Union played an important role in adoption of Agenda 2030.

To achieve this, **TIA2030** engages a variety of target groups, i.e. academia, students, professionals, policy-makers, civil servants, businesses, civil society and the general public at large. **TIA2030** sets up infrastructure, methodologies, protocols, and tools to systematically collect, evaluate and make publicly available both already existing documentary resources and new primary empirical data. This is the foundation for multi-level policy debate with relevant audiences (conference special sessions, joint field trips and round table discussions) and enables to develop content and tools on EU subjects, to complement and upgrade current courses and curricula (course modules, summer schools, workshops), which will be available as Open Educational Resources.

As a result, **TIA2030** will advance interdisciplinary EU studies and deal with the phenomenon of EU implementation deficit, with a view to offer research and educational tools that could be utilised throughout Europe and beyond, to contribute to awareness of **Agenda 2030** and its implementation.
