JEAN MONNET CENTRE OF EXCELLENCE

Technology and Innovations for Agenda 2030 – EU Global Leadership – TIA 2030

Invitation letter

Dear Sir or Madam,

It is my pleasure to invite you to participate in a Winter Camp 2026 Workshop, which will be organised as a part of the **Jean Monnet Centre of Excellence titled "Technology and Innovations for Agenda 2030 - EU Global Leadership" (TIA2030)** led by Prof. Dr. Borut Rončević.

The Workshop is scheduled for the **19th of March 2026** and will also be held via Zoom.

TIA2030 concerns itself with competence and knowledge of the European Union's implementation of the United Nations **Global Agenda 2030** and its **Sustainable Development Goals.** The project deals with the EU dimension by exploring the role of technological innovations in implementing Agenda 2030, also with a view to the **New European Innovation Agenda** (adopted in 2022). TIA2030 aims to foster multi-level dialogue between academics, students, professionals, policymakers, policy officers, civil servants, businesses, civil society, and the general public at large, motivating them to meet and reflect on the SDGs of Agenda 2030 and the European role in it.

We will update you on the details and further activities concerning the Workshop and provide additional information closer to the event date.

We look forward to hearing from you and hope for a positive answer to our invitation. Your contribution, experience and expertise are important for the discussion and will greatly benefit the wider research community.

For more information, don't hesitate to get in touch with us via e-mail at tia2030@fis.unm.si.

Best regards,
The Jean Monnet COE Team,
Kseniia Gromova

The collection of personal information is intended only for the express purpose of organising and managing the event. We are committed to respect and protect the privacy of personal data collected. We regard your personal data as confidential in information and will never communicate it to third parties. This information may be disseminated electronically or on paper and conferred to other participants in the interest of facilitating communication among them, proving their attendance with the signature list to EU- funded control systems, as well as for the promotion of future events on this subject or on similar subjects. Please note that you will be attending on event where photographs and/or audio-visual footage may be taken. By attending this event, you free provide your agreement that you accept to be photographed, filmed or recorded. You also agree that the above-mentioned photos and video or sound recordings may be used, reproduced, distributed and communicated to the public for any other purposes by the Faculty of Information studies in Novo mesto, on websites or other information tools, such as social media or electronic or printed publications.

EU Privacy: Your data is processed in accordance with Regulation (EU) 2021/817 of the European Parliament and of the Council of 20 May 2021 establishing Erasmus+: the Union Programme for education and training, youth and sport and repealing Regulation (EU) No 1288/2013; Regulation (EU) 2021/818 of the European Parliament and of the Council of 20 May 2021 establishing the Creative Europe Programme (2021 to 2027) and repealing Regulation (EU) No 1295/2013; and Regulation (EU) 2021/888 of the European Parliament and of the Council of 20 May 2021 establishing the European Solidarity Corps Programme and repealing Regulations (EU) 2018/1475 and (EU) No 375/2014. In line with our privacy statement, your contact data may be published for a maximum of ten years after the end of the programme.

Funded by the European Union. Views and opinions expressed are however those of the author(s) only and do not necessarily reflect those of the European Union or the European Education and Culture Executive Agency (EACEA). Neither the European Union nor EACEA can be held responsible for them.

Jean Monnet Centre of Excellence titled **Technology and Innovations for Agenda 2030** (TIA2030) is the focal point for competence and knowledge on European Union implementation of United Nations global Agenda 2030. European Union played an important role in adoption of Agenda 2030.

To achieve this, **TIA2030** engages a variety of target groups, i.e. academia, students, professionals, policy-makers, civil servants, businesses, civil society and the general public at large. **TIA2030** sets up infrastructure, methodologies, protocols, and tools to systematically collect, evaluate and make publicly available both already existing documentary resources and new primary empirical data. This is the foundation for multi-level policy debate with relevant audiences (conference special sessions, joint field trips and round table discussions) and enables to develop content and tools on EU subjects, to complement and upgrade current courses and curricula (course modules, summer schools, workshops), which will be available as Open Educational Resources.

As a result, **TIA2030** will advance interdisciplinary EU studies and deal with the phenomenon of EU implementation deficit, with a view to offer research and educational tools that could be utilised throughout Europe and beyond, to contribute to awareness of **Agenda 2030** and its implementation.

The collection of personal information is intended only for the express purpose of organising and managing the event. We are committed to respect and protect the privacy of personal data collected. We regard your personal data as confidential in information and will never communicate it to third parties.
